EDUCATION

Mohamed Sadhak College of arts and science
Sholinganallur, Chennai – 600119 Bachelor of Science
(Computer Science) - July 2019 – June 2022

TECHNICAL SKILLS

- PYTHON
- MYSQL
- ML & DL
- POWER BI
- MS EXCEL
- HTML, CSS, JS

Other skills

- ▶ Pivot table
- ▶ Data Clustering
- ▶ Data Collection
- ▶ Data Mining
- ▶ Segmentation
- ▶ Data Cleaning
- ▶ Manipulation
- ▶ Data Analysis
- ▶ Oops Concept
- ▶ Beautiful Soup

KEY SKILLS & COMPETENCIES

- Time Management and problem solving skills.
- Critical and Creative thinker.
- Leadership skills.
- Customer service and Client interaction skills.
- Adaptability and hard work.
- Proactive communication, self- confidence.
- Great logical thinker.
- Pattern and trend identification.

CERTIFICATION

1. Python basics.
2. Python Object oriented programming.
3. Python data analysis and visualisation.
4. Power BI.
5. Machine Learning.
6. Machine Learning.

AWARDS & HONORS

- Best logical thinker.
- District level Chess Certification.
- Mathematical certification.

PROFESSIONAL SUMMARY

Experienced data analyst with over a year of hands-on expertise in SQL, Python, and Microsoft Excel. Proficient in data manipulation, analysis, and visualization. Adept at translating complex data into actionable insights to drive informed business decisions.

WORK EXPERIENCE

FREELANCE DATA ANALYST

Circuit Makers Laboratory - (April 2023 - Present)

Orchestrated the meticulous curation and organization of raw data, skilfully employing Excel and Python to transform data into actionable insights.

Harmonized disparate data streams, aligning them precisely with client specifications and employing advanced visualization tools like Matplotlib and Seaborn.

Implemented Python for intricate data manipulation, automation, and scripting, capitalizing on the power of tools such as Pandas, NumPy, and PySpark.

Exhibited adeptness in database development and relational concepts, demonstrating proficiency with MySQL for robust data management.

Steered extensive market research initiatives, expertly cleansing, dissecting, and interpreting voluminous datasets utilizing Excel and SQL.

Thrived within an agile project management environment, ensuring adaptability and seamless project execution. Leveraged Tableau for sophisticated data visualization, enhancing the communicative power of complex datasets.

Demonstrated proficiency in the Microsoft Office Suite, including Power BI, Excel, Word, PowerPoint, and Outlook, contributing to comprehensive data-driven presentations.

Experienced web development, full-stack, and data analysis trainer with a proven track record of delivering comprehensive and engaging courses. Proficient in HTML, CSS, JavaScript, Python, and data analysis tools. Skilled in fostering student learning through hands-on projects and real-world applications. Strong communication and mentoring abilities.

Technical Trainee

Nihon Technology private limited (AUG 2022 – MAR 2023)

Experienced in data extraction & manipulation using Excel and SQL. Proficient in leveraging Excel features for data organization & employing SQL queries to extract, filter, and transform data from databases effectively.

Pioneered the creation of a dynamic software system, leveraging Python visualization tools, to elucidate daily banking intricacies through interactive charting.

Devised an intricate workflow system by deconstructing client requirements into sequential actions, laying the foundation for efficient project development.

Orchestrated a comprehensive collection system catering to both bank and mobile users, enhancing user experience and data accessibility.

Drove innovation through the design and implementation of bespoke functionalities that pushed beyond the confines of existing product capabilities.

Executed and managed CRUD operations within SQL databases, ensuring seamless data handling and retrieval. Formulated and deployed reusable code solutions, optimizing efficiency and maintaining a streamlined development process.

Demonstrated proficiency in the Microsoft Office Suite, including Power BI, Excel, Word, PowerPoint, and Outlook, contributing to comprehensive data-driven presentations.

PROJECTS

1. Customer Segmentation and Behaviour Analysis.

LINK- <https://shorturl.at/FIOT1>

Objective: Analysed customer data to create meaningful segments based on demographics and behaviour, aiming to improve marketing strategies and customer satisfaction.

Data Collection: Gathered customer data from multiple sources, including transactions, website interactions, and surveys, ensuring data accuracy and completeness.

Segmentation and Analysis: Employed advanced analytics and clustering techniques to create customer segments, allowing for personalized marketing campaigns and targeted communication.

Results and Impact: Achieved notable improvements in customer engagement, conversion rates, and customer retention, leading to increased revenue and customer loyalty.

Future Recommendations: Proposed ongoing data analysis and adjustments to ensure the continued effectiveness of segmentation and behaviour analysis in meeting business objectives.

Skills Utilized: SQL, Python (Pandas, Scikit-learn), Data Cleaning, Exploratory Data Analysis, Customer Segmentation, Visualization (Excel), Business intelligence, statistics, data management.

2. Medical analysis

LINK- <https://shorturl.at/lzJVW>

Independently initiated and conducted a medical analysis project focused on heart-related diseases using matplotlib, seaborn, data ethics, cross-validation and ensemble methods.

Utilized data visualization techniques to create informative dashboard creation & reporting, aiding in the identification of critical insights and risk factors.

Successfully generated valuable findings and communicated them effectively, demonstrating strong analytical and presentation skills.

Other Projects

1. PORTFOLIO
